ENGLISH LANGUAGE ARTS (ELA)

\$765 A La Carte / \$573.50 Full Program

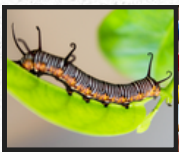

Students learn phonics, spelling, and penmanship through the Spalding method, explore classic stories and poems, and begin developing oral language and early composition skills. They listen to great literature, practice narration and copywork, and delight in the rhythm and beauty of language through poetry and sayings.

MATHEMATICS

\$510 A La Carte / \$382.50 Full Program

Students build a strong foundation in numbers, shapes, patterns, and measurement. They learn to count, compare, and sequence numbers up to 20, explore basic addition and subtraction, and begin skip counting to 100. Hands-on activities help connect math to the world around them.

SCIENCE

\$510 A La Carte / \$382.50 Full Program

Kindergarten science sparks curiosity through hands-on exploration and observation. Students use their five senses to explore topics like weather, plants, animals, motion, and the human body. They'll make predictions, ask questions, and build a joyful foundation for future discovery.

HISTORY

\$510 A La Carte / \$382.50 Full Program

Students explore their place in the world through maps, globes, and simple geography, learning about continents, oceans, and landmarks. They begin with their own communities and expand to key moments in early American history—Native American cultures, Columbus, the Pilgrims, and the fight for independence.

ART

\$510 A La Carte / \$382.50 Full Program

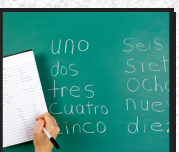

Students build foundational art skills through hands-on activities like drawing, painting, and cutting. They explore shape, value, form, and color while learning to observe, persevere, and create beauty. Along the way, they study master artists like Matisse, van Gogh, and Picasso.

MUSIC

\$510 A La Carte / \$382.50 Full Program

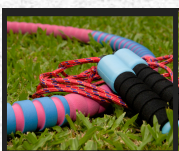

Students explore music through singing, rhythm, movement, and listening. They learn basic music concepts like pitch, tempo, dynamics, and musical opposites, and are introduced to solfege and simple notation. Students also listen to great works by composers like Mozart, Vivaldi, and Beethoven, building a foundation for musical appreciation and expression.

SPANISH

\$510 A La Carte / \$382.50 Full Program

Students will learn the language, culture, and community of different Spanish-speaking countries. They will practice Spanish vocabulary and grammar while learning about the food, customs, and social and geographical studies of countries like Honduras, Peru, Chile, Ecuador, Mexico, and so many more.

PHYSICAL EDUCATION

\$510 A La Carte / \$382.50 Full Program

This fully asynchronous PE curriculum empowers scholars to live a healthy lifestyle by establishing fitness expectations and routines and basic affects of exercise on bones and muscles of the human body. Scholars will also learn about the role National Parks and Recreation play in staying active.
