ENGLISH LANGUAGE ARTS (ELA)

\$765 A La Carte / \$573.50 Full Program

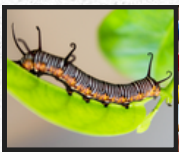

Students sharpen grammar skills through sentence diagramming, outlining, and structured writing exercises. They build expressive, well-structured writing and begin composing multi-paragraph expository and opinion essays. Literature includes *The Secret Garden* with discussions and independent reading. Students memorize and recite poetry and speeches, analyzing poetic form and language with greater depth.

MATHEMATICS

\$510 A La Carte / \$382.50 Full Program

Students master all four operations with whole numbers, fractions, and decimals, and explore place value through 10 million. They dive deeper into geometry, including area, perimeter, volume, and surface area. Bar models support multi-step problem solving, and students are introduced to negative numbers and algebraic notation.

SCIENCE

\$510 A La Carte / \$382.50 Full Program

Students explore the vastness of space and the tiniest particles of matter through hands-on experiments and inquiry. They study the solar system, atoms, chemical changes, ecosystems, and Earth's systems: atmosphere, hydrosphere, geosphere, and biosphere. Lessons connect science to real-world challenges like natural disasters and environmental conservation.

HISTORY

\$510 A La Carte / \$382.50 Full Program

Students explore world lakes, map skills, and key historical events, including the Maya, Inca, and Aztec civilizations, European exploration, the Renaissance, the Reformation, the U.S. Civil War and Reconstruction, and westward expansion's impact on Native peoples and U.S.-Mexico relations.

ART

\$510 A La Carte / \$382.50 Full Program

Students refine drawing skills through focused practice in graphite and color, with an emphasis on form, volume, and observation. They explore color theory and botanical drawing, blending scientific accuracy with artistic expression. Artistic habits like perseverance and attention to detail are woven throughout the semester.

MUSIC

\$510 A La Carte / \$382.50 Full Program

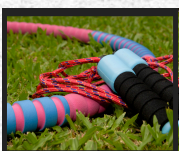

Students deepen their skills in performance, theory, and appreciation. They study solfege, key signatures, major scales, time signatures, and musical form. Through listening and analysis of masterworks, students explore instruments, style, and expression, gaining a richer understanding of music across cultures and time periods.

LATIN

\$510 A La Carte / \$382.50 Full Program

Students build a strong foundation in Latin grammar and vocabulary through reading, writing, speaking, and listening. They study declensions, conjugations, pronouns, and commands while exploring adapted texts like Horace and the Aeneid.

PHYSICAL EDUCATION

\$510 A La Carte / \$382.50 Full Program

This fully asynchronous PE curriculum empowers scholars to live a healthy lifestyle by establishing fitness expectations and routines and basic affects of exercise on bones and muscles of the human body. Scholars will also learn about the role National Parks and Recreation play in staying active.
